

Scandinavian Rail Shuttle

The first intermodal rail shuttle between Denmark and Sweden

DB Cargo Scandinavia offers the first regular intermodal train service between the main industrial areas in Denmark and Sweden with the highest consumer density.

Taulov, located in the so-called triangle area in Jutland, Denmark and **Katrineholm**, only 150 km from the capital area of Stockholm in Sweden

Launch
Nov
2020

- Whether you wish to transport your trailers, swap-bodies or containers, we will be happy to assist.
- Whether you wish to use the shuttle once, twice or three times a week, we will be happy to assist.
- Whether you wish your goods to be transported to your final destination in Sweden, Denmark or central and Southern Europe, we will be happy to assist.

Fast and reliable.
Sustainable and from a single source.
